

[Detailed description: The figure consists of four maps of Canadian cities arranged in a 2x2 grid. The top-left map shows the city of Vancouver with a red box highlighting downtown. The top-right map is a detailed view of downtown Vancouver with a scale bar of 1 km. The bottom-left map shows the city of Calgary with a red box highlighting downtown. The bottom-right map is a detailed view of downtown Calgary with a scale bar of 4 km. Each map uses a legend at the bottom to identify three types of infrastructure: New Infrastructure Since Jan. 2020 (green lines), Unchanged Infrastructure (grey lines), and Upgraded Infrastructure Since Jan. 2020 (orange lines). The maps show significant green and orange lines in the downtown areas of all three cities, indicating new and upgraded infrastructure respectively.]
